No problem.

FYI...R6 is likely going to be pushing back on the single SSID issue. Possibly R9 too.

Laura,

Updated breakout for the pay and travel estimates. These are based on current burn rates. The Regions continue to deploy additional employees each day so this is based on a staffing snapshot. At this time we cannot anticipate when any ramping down would occur. Estimates are based on two week deployments and ongoing work for and to provide needed support thru at least the end of the FY at current staffing levels above and beyond our current available balances in 303DC6 accounts.

Ben

Lisa,

As detailed below, Regions 8, 6, and 9 are requesting a combined \$18,062,400 for the Gold King Mine Response work. This is anticipated to cover funding of response needs through the remainder of FY 2015. Obviously, as we better understand the nature of response activities needed we will be able to refine our estimates. All 3 regions coordinated this cost estimate/request and can be contacted if there are any questions. Thank you for your patience in receiving this information. - lw

Ben and Laura-

Great discussion this morning. We have confirmed that the 9R funds can be used for payroll (YAY).

As you are gathering your estimates, please be sure to include what is listed below. OEM will need these estimates and timeframes before we can go forward to the Budget office.

- 1) the amount estimated for extramural for R8 and if this includes work in R 6&9, if not please include their estimates;
- 2) the amount estimated for overtime for R 6,8 & 9;
- 3) the amount estimated for site travel for R 6, 8 & 9;
- 4) Timeframes. If you can segment the work/ needed resources or estimate this much payroll, travel, contractor costs etc will get us through ?

Thanks
